Principal's Message

CLASS OF 1974, THINK ON THESE THINGS

I do not know whether the Battle of Waterloo was actually won on the playing fields of Eton. But it is no exaggeration to say that the struggle in which we are now engaged may well be won or lost in the classroom of America.--John F. Kennedy, 1958.

Indeed we are in a crisis today. Watergate did not begin it. Threats of impeachment will not end it. For this crisis is not one of governmental misdeeds alone--our greatest threat lies in the apathetic hearts and minds of too many Americans. The challenge to change the spirit of permissiveness that has permeated the American life style has been directed to the teachers in American schools--your teachers have tried to prepare your minds for a brighter day ahead! No "crash" program can do this job! This is an educational emphasis, as you, the Class of 1974, full-well know that must be painstakingly built. For the past year the Trexler faculty have been pledging themselves to develop educational programs that would not only fill your minds with facts, nor only teach you to think, but above all would motivate you to grow into whole-some, well-rounded personalities.

This has been our great purpose for you this year. Now, as you enter the high schools, we sincerely hope that you will continue to grow in all areas so that in each subsequent crisis you will have developed the strength and power to be a winner.
