Principal's Message

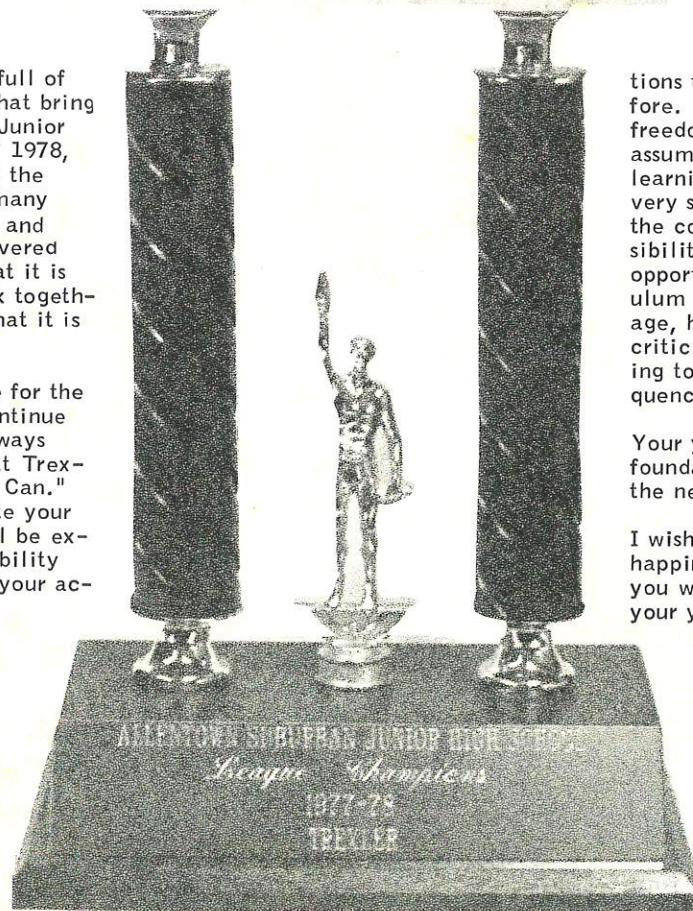

Another year has passed - a year full of events and experiences - a year that brings to a close your tenure at Trexler Junior High School. For you, the class of 1978, the year can never be duplicated; the past is history. We have learned many things, experienced many events, and met many people. We have discovered the world of reality, and know that it is not easy to always agree and work together; but we have also discovered that it is possible if we try.

I know you will continue to strive for the highest success possible as you continue your education in high school, always keeping in mind our motto here at Trexler, "If You Think You Can, You Can." Your high school years will dictate your success or failure in life. You will be expected to assume greater responsibility and will be held accountable for your ac-

tions to a greater degree than ever before. You will receive a greater degree of freedom, and you will be expected to assume greater responsibility for your own learning. Your years at high school can be very satisfying and rewarding if you have the courage to fully accept this responsibility and avail yourself of the many opportunities found in the school's curriculum and extracurricular programs. Courage, however, often means accepting criticism, relying on yourself, being willing to accept and learn from the consequences of your choices.

Your years at Trexler have provided the foundation upon which to build and face the new world that is opening to you.

I wish each of you good health and much happiness in the future. I sincerely hope you will always hold fond memories of your years at Trexler.
